

# NEW EVENT/HEARING CODES FOR PQ CASES

*Approved at January 19, 2023 OJUG meeting*

## 1. **3483 - CLS: Termination of Guardianship/Conservatorship (Obsoleted)**

ODUG voted to rename this closing event but JID determined that if we modify the existing code Odyssey would also modify historical data wherever the event code was previously used. Rather than renaming this CLS code, two separate closing codes were created.

### **1604 - CLS: Termination of Conservatorship**

Stops case aging clock

Case status: Final Closed

Statistical Closure: Final Decree/Order/Judgment

### **1605 - CLS: Termination of Guardianship**

Stops case aging clock

Case status: Final Closed

Statistical Closure: Final Decree/Order/Judgment

## 2. **Termination of either a guardianship or conservatorship.**

These new NCJ codes should be used when a judge determines the Protected Person is no longer in need of either a guardian or a conservator and dismissing one, but not both.

### **1644 - NCJ: Termination of Conservatorship**

Does not affect the aging clock

### **1645 - NCJ: Termination of Guardianship**

## 3. **Special Hearings in PQ cases**
